DAOSIS

THE PROBLEM - A HUMAN POTENTIAL CRISIS

SICK

Chronic illness and mental decline are rampant

UNEDUCATED

Skills gaps and disengaged learning are prevalent

DISCONNECTED

People are isolated and unsupported

UNCOORDINATED

Systems for self-improvement are fragmented

DISTRACTED

Attention is hijacked by irrelevant and manipulative content

BROKE

Time and money are wasted on unverified solutions

The more we progress, the more we regress.

THE THREE PLAYERS: PROTÉGÉ, PROVIDER, AND PROPRIETOR

Selina the student

Navigates fragmented info (Google, social media), lacks clear guidance

Manually schedules and pays for services, hindering coordination

Wastes resources on unverified solutions, with no true awareness of results

Travis the trainer

Acquires clients via social media "gimmicks," struggles to build loyalty

Constantly chasing payments, scheduling appointments, or motivating clients, efforts are siloed

Undervalued without the ability to validate impact or client results

Jimmy the gym owner

Relies on ads and traditional software, limiting connection to demand

Deals with unreliable customers/employees, lacking awareness, and coordination

Wastes resources due to unverified utilization and lack of focus

A SELF-OPTIMIZING ECOSYSTEM EMPOWERS HUMAN POTENTIAL

GUIDANCE

AI-generated personal plans leverage real-world verified outcomes

AWARENESS

Verifiable progress metrics from real-world results

CONNECTION

Seamless access to trusted people, communities, and shared methods

COORDINATION

AI-scheduling harmonizes community synergy and group coordination

FOCUS

Intuitive tools and real-time feedback eliminate distractions and increase focus

REWARD

Incentivized contributions and recognition for verifiable impact

Synergizing existing AI technologies with human experience and passion

THE THREE PLAYERS: IMPROVEMENT & EMPOWERMENT

Selina the student

Receives AI-driven guidance and a prescriptive plan

Effortless coordination for bookings and payments

Gains awareness of real progress, rewarded for transformation

Jimmy the gym owner

Maximizes asset use through direct connection to demand

Streamlined coordination for bookings and management

Gains awareness of utilization, rewarded for optimized resources

Travis the trainer

Finds clients through organic connection via Goal Planner

Automated coordination for scheduling and payments

Builds awareness of impact, rewarded for verifiable results

UNIVERSAL APPLICATIONS: INFINITE TRANSFORMATIONS

DAOSIS is a universal framework for any measurable human transformation, empowering individuals, expert providers, and proprietors to collaborate in ways previously impossible.

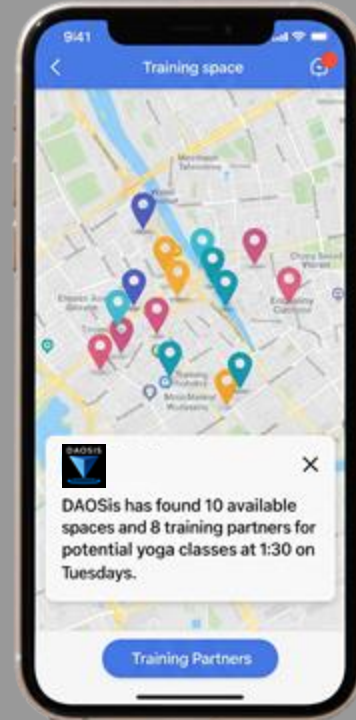

Applications	Goal	Seeker(s)	Provider/Mentor	Proprietor
School	Learn Spanish	Student	Teacher	Homeschool Owner
Healing	Injury Recovery	Patient	Therapist	Spa Owner
Events	Throw a Party	Host	Caterer	Commercial Kitchen Owner
Business	Make/Sell Jewelry	Protege	Entrepreneur	Workshop Owner
Community	Build a Playground	Volunteers	Builder	Machinery Owner
Online	Learn to Cook	Student	Chef	DAOSIS

This is true community synergy at its maximum.

NEW SYNERGIES: TEAM UP & TRANSFORM

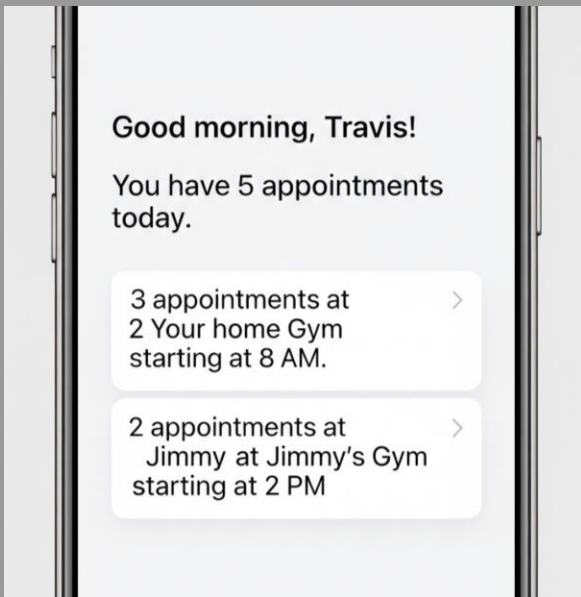

Classes, workshops, even parties and events, are seamlessly formed based on supply and demand from within the community

- Users can team up and split costs on coaches or space rentals
- Support groups and social syncing create powerful accountability
- Private spaces (e.g., garages, home gyms) become transformation zones
- Public parks and unused office space can be transformed into event spaces and learning hubs

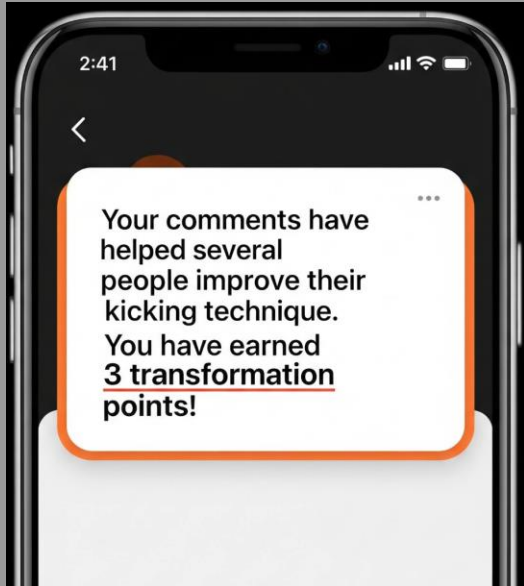

INTELLIGENT COORDINATION = TIME & MONEY SAVED

More results, fewer barriers. It's the Uber and Airbnb of transformation

- AI cross-matches goals, people, and locations for ideal session times
- Bookings, reminders, and payments happen without friction
- Removes middlemen and logistical headaches

ONLINE EXPANSION: LEARN ANYWHERE

- Online courses and private tutors offer more opportunities for transformation
- Users upload progress (e.g., video of a roundhouse kick)
- Professionals worldwide review and rate progress
- Best advisors rise through verified improvement

Transformation is borderless—learn and grow from anywhere

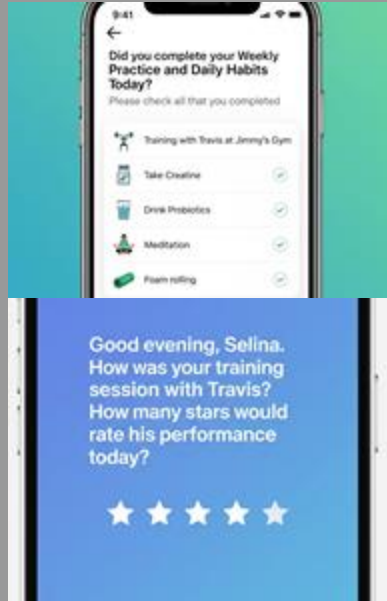

PRODUCT FLOW: TRANSFORMATION JOURNEY

1. Set a goal – AI crafts a personalized roadmap based on real-world success data
2. Get matched – connect with trusted providers & places
3. Take action – schedule and pay for sessions, join programs
4. Track progress – AI monitors transformation and makes suggestions for adjustments
5. Earn coin – get rewarded for contributing valuable data and results

THE SYSTEM CONTINUOUSLY LEARNS WHAT WORKS

No more marketing bias. No more guesswork. Just verified impact.

DAOSIS is a living knowledge engine:

- Tracks every progress point, practice, habit, and transformation
- Scores every professional, place, product, and method
- Surfaces what works for every goal based on real-world outcomes

Imagine if we had 10 years of real transformation data—DAOSIS makes that future possible

GAMIFYING TRANSFORMATION & THE SCOREBOARD

Multi-dimensional scores for all transformation assets:

Transformation Points:

Total value created for contributions to the community

Success Rate:

Percentage of past success relative to specific goals

Cost Index:

Amount of money and time required for success

Quality Rating:

User feedback on their experiences with a given asset

SCORES FOR PRODUCTS, PEOPLE, PLACES, AND METHODS

Everything gets scored in multiple ways based on verifiable end results:

- Products: Food, supplements, tools, equipment
- Professionals: Trainers, teachers, therapists, doctors
- Places: Gyms, schools, healing centers, hospitals
- Methods: Intermittent fasting, Montessori, Thai massage

The system evolves to spotlight what, who, and where delivers the best results

TRUST & VERIFICATION – POWERED BY COMMUNITY

Quality control through incentives, not bureaucracy

- Profiles and results are verified through community review
- False results flagged, filtered, and removed
- Contributors who verify and rate earn Coin for improving data quality

You have verified the transformation results of 10 users and have earned 1 transformation point!

Thank you for your contribution to DAOsis.

DAOSIS COIN FUELS THE ECOSYSTEM

User Contribution = Transformation Points = DAOSIS Coin

- Earned by contributing to transformation: verifying profiles, sharing your progress and results, giving quality ratings, referring new members to the app
- Coin is backed by platform revenue and marketplace use: the more revenue earned by DAOSIS, the more coin is minted
- Converts effort into value, just like equity: Trade your coin for cash, or keep it and retain equity in the app
- Incentivizes continuous participation and referrals
- Dynamic Rewards: Fluid transformation point distribution and Coin minting allow resources to flow to areas of greatest unmet need

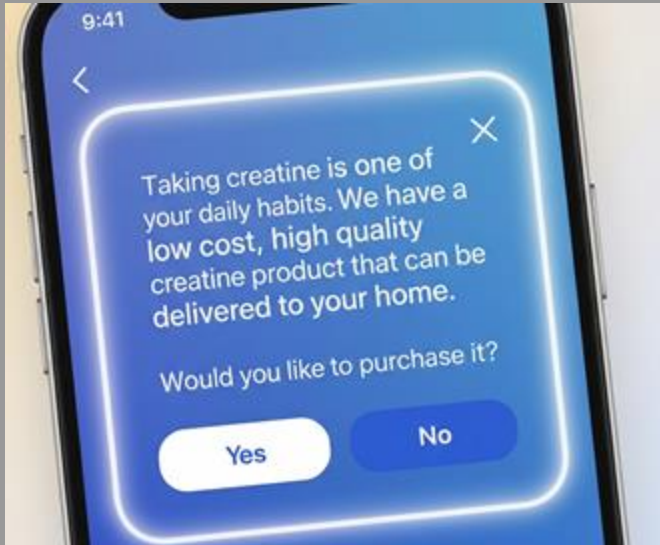

You don't just grow—you own the system that helps you grow

Competitors

Feature / Platform	DAOSIS	Mindbody	MasterClass	Noom	STEPN
AI Planning	✔ Yes	✘ No	✘ No	✔ Yes	✔ Yes
Verifiable Results	✔ Yes	✘ No	✘ No	✘ No	✘ No

Community-Sourced Validation	✔ Yes	✘ No	✘ No	✘ No	✔ Partial
Space Coordination	✔ Yes	✔ Partial	✘ No	✘ No	✘ No

DAOSIS is the only platform that combines AI planning, verified real-world outcomes, crypto incentives, and decentralized coordination across all forms of personal transformation.

BUSINESS MODEL: REVENUE GENERATION

Revenue Stream

A small service fee on all platform transactions

- Bookings (sessions, space, and equipment rentals)
- Physical product sales (food, supplements, tools)
- Digital product sales (courses, recipes, systems)

Value Exchange

- Users: higher success rates, lower costs, social synergy
- Professionals: more clients, less marketing, more money
- Proprietors: monetize underused space, hands-off management

MARKET OPPORTUNITY: UNLOCKING A TRILLION- DOLLAR FUTURE

\$4.5 Trillion

Wellness and personal development

\$1.1 Trillion

Personal care and beauty

\$350 Billion

Online learning and skill acquisition

\$350 Billion+

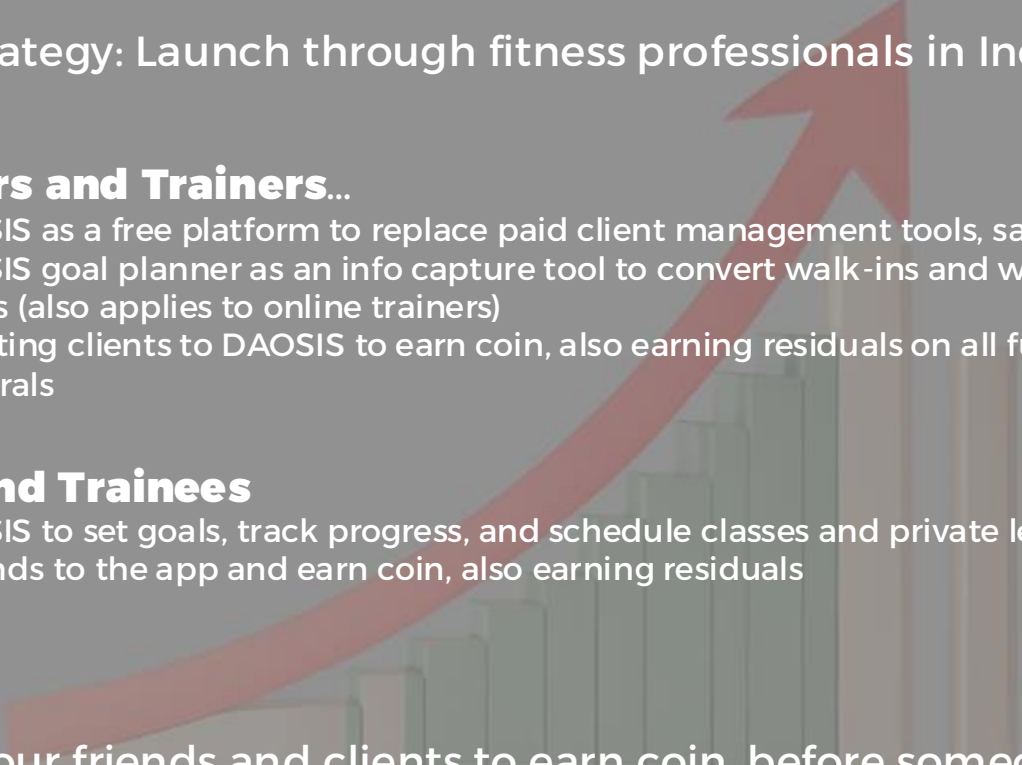

Gig economy and creator economy

Global Wellness
Economy: **\$6.3 Trillion**

Our true TAM is the global human potential market - an untapped, multi-trillion-dollar opportunity

GO-TO-MARKET STRATEGY: TARGETED & VIRAL GROWTH

Our Strategy: Launch through fitness professionals in Indianapolis

Gym Owners and Trainers...

- Use DAOSIS as a free platform to replace paid client management tools, saving time & money
- Use DAOSIS goal planner as an info capture tool to convert walk-ins and website traffic into customers (also applies to online trainers)
- Refer existing clients to DAOSIS to earn coin, also earning residuals on all future activities of their referrals

Students and Trainees

- Use DAOSIS to set goals, track progress, and schedule classes and private lessons
- Refer friends to the app and earn coin, also earning residuals

Refer your friends and clients to earn coin, before someone else does!

FINANCIAL PROJECTIONS: OUR PATH TO EXPONENTIAL GROWTH

A	Revenue Growth Trajectory	Projected revenue: achieving \$.5M in Year 1 (pilot), \$10M in Year 3, and \$50M in Year 5. Driven by increasing user adoption, transaction volume, and expansion into new verticals
B	Profitability Timeline	Path to profitability: aiming for positive EBITDA by Year 2/Q3, fueled by scalable technology and efficient operational leverage
C	Key Revenue Drivers	Primary revenue drivers: transaction service fees (from bookings, marketplace, courses), interest income from community lending, and strategic growth of the DAOSIS coin reserve
D	User Growth & Engagement Metrics	User growth: projecting 50K active users by Year 1, growing to 2M by Year 3, and 3M by Year 5, with high engagement driven by our unique incentive model and verifiable results

WHY DAOSIS WILL WIN

We don't sell transformation. We optimize it.

1. Verifiable truth: AI + outcomes reveal what truly works
2. Viral incentives: coin-powered sharing drives rapid growth
3. Decentralized ownership: value accrues to contributors
4. New synergies: unlock collaboration that's never existed before
5. Marketplace wisdom: best methods, products, and people rise to the top
6. Distraction-free environment: only see content aligned to your goals

DAOSIS

Investing in DAOSIS is investing in the future of human potential. You're backing a scalable, defensible platform poised to disrupt a multi-trillion-dollar market by delivering verifiable results and fostering true shared prosperity. Join us in building a more capable, connected, and rewarding world.

THE ASK: JOIN US IN UNLOCKING HUMAN POTENTIAL

We are seeking **\$2 Million** in seed funding.

Funding Our Next Phase of Growth:

1. Accelerate Core Platform Development: 45% for building out the full Phase 1 features (Goal Planning, Booking Function), refining the AI engine, and enhancing the intuitive UI/UX
2. Build Our Founding Team: 30% for key hires in engineering, AI/data science, product design, and initial community management to drive rapid development and prepare for pilot
3. Launch Pilot Program: 15% for the initial Indianapolis pilot, targeted outreach, and community building efforts to drive early adoption, gather critical feedback, and validate core hypotheses
4. Operational Setup & Compliance: Remainder for legal formation, IP protection, initial regulatory considerations, and essential operational expenses

THANK YOU!

Join us in building the future of human potential.
Let's transform lives, together.
